**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 17, replace "Claim 16" with --Claim 3--.

The reasons for this amendment is due to the improper claim dependency of claim 17, claim 17 was originally dependent upon claim 16, which has since been canceled and incorporated into parent claim 3. Thus to expedite the examination, an examiner's amendment has amended for a proper claim dependency for claims 17 and 18.

2. The following is an examiner's statement of reasons for allowance: The prior art of reference fails to teach the claimed method of inspecting the molded part in the mold, having infrared thermograph of the part and analyzing the temperature data including analyzing between the part surface temperature and part center temperatures in view of the glass transition temperature to determine the optimum temperature with optimized cooling time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to EMMANUEL S. LUK whose telephone number is (571)272-1134. The examiner can normally be reached on Monday-Fridays from 9 to 5.
